Of the many brass bands that have flourished in Britain and Ireland over the last 200 years very few have documented records covering their history. This directory is an attempt to collect together information about such bands and make it available to all. Over 19,600 bands are recorded here, with some 10,600 additional cross references for alternative or previous names. This volume supersedes the earlier "British Brass Bands - a Historical Directory" (2016) and includes some 1,400 bands from the island of Ireland. A separate work is in preparation covering brass bands beyond the British Isles. A separate appendix lists the brass bands in each county

*The Annual Monitor For 1852 Or, Obituary Of The Members Of The Society Of Friends In Great Britain And Ireland For The Year 1851* Penguin

"This book is a study of the governing class in Great Britain and Ireland based on a complete survey of all families who participated regularly in parliament." "Using the records of the History of Parliament and the results of his own independent research, Ellis Wasson has reconstructed the shape and structure of Britain's small and remarkably stable ruling elite from medieval times to 1945. No other European governing class was so rich or able to survive into the modern era with much of that wealth and privilege intact. Wasson shows how its unique two-tiered structure of a handful of ancient families on top and a much larger second echelon broadly open to 'new men' from business helped Britain become the first modern society and prolonged the elite's supremacy." -BOOK JACKET.

*New Year's Day, Day of Atonement* Peter Lang

This book contains an account of the 2,352 families (close to 3,000 counting cadet lines) that had one member sit in either House of the English, British, or United Kingdom Parliament, the Irish Parliament, or the Scottish Parliament between 1660 and 1945 and was represented in one of these Parliaments by at least three members at any time between the Middle Ages and 2015. Nearly 20,000 individuals are included in the main listings. Information is provided about social origins, ownership of country houses, wealth, honors, offices held, and links with associated families. The list provides a comprehensive reference source for the governing class of Great Britain and Ireland from Oliver Cromwell to Winston Churchill, and offers a deep pool of data to support analysis of social, political, economic, and cultural history in the British Isles over the course of more than four centuries. The British and Irish ruling class was a political, social, and economic elite. It constituted a hereditary landed aristocracy, constantly renewed and expanded by commercial and manufacturing wealth, that dominated government into the nineteenth century, remained potent in the twentieth century, and helped shape the modern world.

*Mind Full* Irish Books & Media

This book concerns Tomás O'Crohan of the Blasket Islands and offers a radical reinterpretation of this iconic Irish figure and his place in Gaelic literature. It examines the politics of Irish culture that turned O'Crohan into «The Islandman» and harnessed his texts to the national political project, presenting him as an instinctual, natural hero and a naïve, almost unwilling writer, and his texts as artefacts of unselfconscious, unmediated linguistic and ethnographic authenticity. The author demonstrates that such misleading claims, never properly scrutinised before this study, have been to the detriment of the author's literary reputation and that they have obscured the deeply personal and highly idiosyncratic purpose and nature of his writing. At the core of the book is a recognition that what O'Crohan wrote was not primarily a history, nor an ethnography, but an autobiography. The book demonstrates that the conventional reading of the texts, which privileges O'Crohan's fisherman identity, has hidden from view the writer protagonist inscribed in the texts, subordinating his identity as a writer to his identity as a peasant. The author shows O'Crohan to have been a literary pioneer who negotiated the journey from oral tradition into literature as well as a modern, self-aware man of letters engaging deliberately and artistically with questions of mortality.
