 Students today have  
 exciting career  
 opportunities, but face  
 stiff challenges to  
 materialize them. Time  
 management is the key to  
 success. Those who  
 manage time efficiently  
 will get rewards; those  
 who fail to do so, will face  
 disappointments. Time  
 management does not  
 mean you need to turn  
 into a workaholic. It  
 means efficiently  
 completing your work  
 without stress; and  
 getting more time for

other enjoyable and fruitful pursuits. This is a work-book. It is to be put into practice. It explains simple and effective techniques, and offers practical tips for time management. Topics include, efficient methods of studies, improving memory, speed reading taking notes in class time management during examinations. But apart from a work-book, it is also a highly motivating book. It explains how the practice of time management will not only help students in the

immediate context of their studies and examinations, but will also help and enrich them in later life. The deep but practical insights on time management developed by the author from his long and extraordinarily varied teaching experience are succinctly encapsulated and lucidly explained in this remarkable book. A book that every student must possess and read frequently to ensure success, now and in future.

 With the advent of the information and communication technologies, traditional library activities are undergoing transformation in a big way. Modern library's collection includes a vast array of information resources, databases, electronic journals, e-books, digital images, institutional repositories etc. To manage a modern library, library professionals need to have awareness and

knowledge on management of electronic resources, federated and discovered tools for single click search, literature techniques, application of RFID and other technologies, user needs and knowledge on soft skills etc. Keeping these perspectives and issues in mind the National Conference on Management of Modern Libraries (NACML) was organized by SEARCH-The health science library in association with the department of Library and Information Science,

Manipal University, Manipal The main objective of the conference was to provide an opportunity to LIS professional to explore the ways and means to manage the modern libraries where electronic resources are playing an important role in meeting the information needs of the users and to explore, discuss and share ideas and knowledge related to innovative modern library management systems to meet the needs of the changing environment. In five technical sessions

under five different categories titled Technologies for Management, Best Practice in Modern Libraries, digital libraries and Role of Library Professionals in Management of Modern Libraries held over the two days, total 51 papers were presented at the conference. Various challenges and issues related to management of modern libraries were discussed in the technical sessions and some of the authors shared the best practices of their libraries.

The author highlighted the importance of digital libraries and stressed the needs of various skills to work in digital environment. The papers presented in the conference have been edited and brought out in the form of a conference proceedings.
