Here's Why** Document Versioning Rulesb. The first final version of a document will be Version 1.0. Include the date when the document becomes final. Generally, the final version is submitted to the Institutional Review Board (IRB) and/or FDA. c. Subsequent final documents will have an increase of "1.0" in the version number (1.0, 2.0, etc.). 5. Final documents undergoing revisions a. Version Control GuidelinesThe first dimension is version control at the document 'version' or alteration level. This can look a little different depending on the use case, but it is essentially tracking changes to the document which are saved (autosaved or manually saved) to create a new 'version'. Document version control example: Managing documents

properly One fundamental aspect of document versioning is tracking changes and tracking the creation of multiple document versions, for example, by numbering file versions in succession. Along with tracking changes, there is the issue of file integrity or determining whether changes have been made to files. Some programs use hashing features or other indicators to see whether files have been altered.
