*A Soldier's Perspective: 1916-1919* By: Carol Ann Asplund In *A Soldier's Perspective*, Carol Ann Asplund presents a biography of her grandfather, Walter C.R. Krieger, and his family, focusing on his service in the 1916 Mexican Campaign and World War I. Told by Walter's own words from his diary entries and accompanied by numerous photographs, *A Soldier's Perspective* shows the heart and patriotism of a young man whose family were immigrants to the United States from the same areas of Germany and France where the war was fought.

Unlike other family textbooks that mostly emphasize conflicts and problems, this book also features the joys and pleasures of family living and its mutually nourishing qualities. Its perspective reflects polls, surveys, and student essays indicating that most people value their families. Families everywhere provide love, support, and sustenance to their members, but they do so in many different arrangements. Understanding the wide variety of families historically and across cultures gives the student a better basis for understanding how families change and a better grasp of more controversial changes such as the gradual acceptance by Westerners of same-sex marriage and child-rearing by single people. Liazos offers two poignant chapters not found in other texts. *Family Living* (Chapter Six) focuses on the social value of caregiving and family meals. *Kin and Community* (Chapter Seven) focuses on relationships among kin and the larger community.

Jeff Speck has dedicated his career to determining what makes cities thrive. And he has boiled it down to one key factor: walkability. The very idea of a modern metropolis evokes visions of bustling sidewalks, vital mass transit, and a vibrant, pedestrian-friendly urban core. But in the typical American city, the car is still king, and downtown is a place that's easy to drive to but often not worth arriving at. Making walkability happen is relatively easy and cheap; seeing exactly what needs to be done is the trick. In this essential new book, Speck reveals the invisible workings of the city, how simple decisions have cascading effects, and how we can all make the right choices for our communities. Bursting with sharp observations and real-world examples, giving key insight into what urban planners actually do and how places can and do change, *Walkable City* lays out a practical, necessary,

and eminently achievable vision of how to make our normal American cities great again.

#### **The Lives of Millie-Christine McKoy and Daisy and Violet Hilton** John Wiley & Sons

Conjoined twins have long been a subject of fantasy, fascination, and freak shows. In this first collection of its kind, Millie-Christine McKoy, African American twins born in 1851, and Daisy and Violet Hilton, English twins born in 1908, speak for themselves through memoirs that help us understand what it is like to live physically joined to someone else. Conjoined Twins in Black and White provides contemporary readers with the twins' autobiographies, the first two "show histories" to be republished since their original appearance, a previously unpublished novella, and a nineteenth-century medical examination, each of which attempts to define these women and reveal the issues of race, gender, and the body prompted by the twins themselves. The McKoys, born slaves, were kidnapped and taken to Britain, where they worked as entertainers until they were reunited with their mother in an emotional chance encounter. The Hiltons, cast away by their horrified mother at birth, worked the carnival circuit as vaudeville performers until the WWII economy forced them to the burlesque stage. The hardships, along with the triumphs, experienced by these very different sister sets lend insight into our fascination with conjoined twins.

As I drew closer to the town of Pont-de-Vaux... I found myself thinking of some of the places I'd passed through. There were so many tiny hamlets, villages and larger towns, some vibrant and fine-looking, others lifeless, run down and in dire need of repair. Then there were, of course, the countless numbers of French people who had helped me piece together the jigsaw of roads along my way. The places I was riding through weren't quite the same, but there was that unmistakable pungent smell of agriculture in the air and the sight of fat cows chomping lazily on mouthfuls of grass. It was vastly different from the Hautes-Alpes and the bustling stretch of Mediterranean coast, but full of its own charm and character nonetheless. Beginning with the idea of tackling some of Europe's most formidable mountains on his road bike, Mark Krieger, along with his wife Roz, started his journey around France - from the medieval town of Langres - and instantly fell in love with the country. Known for its history, culture, fine cuisine and above all, its cycling, it became the perfect setting for a Tour of a lifetime.

The best-selling investing "bible" offers new information, new insights, and new perspectives The Little Book of Common Sense Investing is the classic guide to getting smart about the market. Legendary mutual fund pioneer John C. Bogle reveals his key to getting more out of investing: low-cost index funds. Bogle describes the simplest and most effective investment strategy for building wealth over the long term: buy and hold, at very low cost, a mutual fund that tracks a broad stock market Index such as the S&P 500. While the stock market has tumbled and then soared since the first edition of Little Book of Common Sense was published in April 2007, Bogle's investment principles have endured and served investors well. This tenth anniversary edition includes updated data and new information but maintains the same long-term perspective as in its predecessor. Bogle has also added two new chapters designed to provide further guidance to investors: one on asset allocation, the other on retirement investing. A portfolio focused on index funds is the only investment that effectively guarantees your fair share of stock market returns. This strategy is favored by Warren Buffett, who said this about Bogle: "If a statue is ever erected to honor the person who has done the most for American investors, the hands-down choice should be Jack Bogle. For decades, Jack has urged investors to invest in ultra-low-cost index funds. . . . Today, however, he has the satisfaction of knowing that he helped millions of investors realize far better returns on their savings than they otherwise would have earned. He is a hero to them and to me." Bogle shows you how to make index investing work for you and help you achieve your financial goals, and finds support from some of the world's best financial minds: not only Warren Buffett, but Benjamin Graham, Paul Samuelson, Burton Malkiel, Yale's David Swensen, Cliff Asness of AQR, and many others. This new edition of The Little Book of Common Sense Investing offers you the same solid strategy as its predecessor for building your financial future. Build a broadly diversified, low-cost portfolio without the risks of individual stocks, manager selection, or sector rotation. Forget the fads and marketing hype, and focus on what works in the real world. Understand that stock returns are generated by three sources (dividend yield, earnings growth, and change in market valuation) in order to establish rational expectations for stock returns over the coming decade. Recognize

that in the long run, business reality trumps market expectations. Learn how to harness the magic of compounding returns while avoiding the tyranny of compounding costs. While index investing allows you to sit back and let the market do the work for you, too many investors trade frantically, turning a winner's game into a loser's game. *The Little Book of Common Sense Investing* is a solid guidebook to your financial future.

From the international bestselling author of *The Architecture of Happiness* and *How Proust Can Change Your Life* comes this lyrical, erudite look at our world of work. We spend most of our time at work, but what we do there rarely gets discussed in the sort of lyrical and descriptive prose our efforts surely deserve. Determined to correct this lapse, armed with a poetic perspective and his trademark philosophical sharpness, Alain de Botton heads out into the world of offices and factories, ready to take in the beauty, interest, and sheer strangeness of the modern workplace. De Botton spends time in and around some less familiar work environments, including warehouses, container ports, rocket launch pads, and power stations, and follows scientists, landscape painters, accountants, cookie manufacturers, therapists, entrepreneurs, and aircraft salesmen as they do their jobs. Along the way, de Botton tries to answer some of the most urgent questions we can pose about work: Why do we do it? What makes it pleasurable? What is its meaning? To what end do we daily exhaust not only ourselves but also our planet? Equally intrigued by work's pleasures and its pains, Alain de Botton offers a characteristically lucid and witty tour of the working day and night, in a book sure to inspire a range of life-changing and wise thoughts.

The classic work of political, economic, and historical analysis, powerfully introduced by Angela Davis In his short life, the Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution, leading movements in North America, South America, the African continent, and the Caribbean. In each locale, Rodney found himself a lightning rod for working class Black Power. His deportation catalyzed 20th century Jamaica's most significant rebellion, the 1968 Rodney riots, and his scholarship trained a generation how to think politics at an international scale. In 1980, shortly after founding of the Working People's Alliance in Guyana, the 38-year-old Rodney would be assassinated. In his magnum opus, *How Europe Underdeveloped Africa*, Rodney incisively argues that grasping "the great divergence" between the west and the rest can only be explained as the exploitation of the latter by the former. This meticulously researched analysis of the abiding repercussions of European colonialism on the continent of Africa has not only informed decades of scholarship and activism, it remains an indispensable study for grasping global inequality today.

Motown means different things to different people. The mere mention of perhaps the most iconic record label in history is often enough to invoke memories and mental images of Marvin Gaye, Diana Ross, Stevie Wonder, The Temptations, The Jackson 5, The Supremes and numerous others. With each group recalled, there is an accompanying piece of music of the mind, from *Baby Love*, *My Girl*, *Signed Sealed Delivered*, *I Heard It Through The Grapevine*, *ABC* and *Tears Of A Clown* and countless more. Quite often, you can ask people what kind of music they like and they will simply answer 'Motown', and both they, and you, know exactly what is meant. Or rather, what is implied. The Motown they are invariably thinking of is the label that dominated the charts in the mid 1960s with a succession of radio friendly, dance orientated hits, most of which were written and produced by the trio of Brian Holland, Lamont Dozier and Eddie Holland. This period is referred to, naturally enough, as the Golden Era, when Motown was not only the dominant force in its home city of Detroit but carried *The Sound of Young America* all around the world. The kind of music that had them *Dancing In the Street* from Los Angeles to London, Miami to Munich and San Francisco to Sydney. It was the kind of music that attracted scores of imitators; some good, some not so good. The kind of music that appealed to the public and presidents alike, and still does. It was that Motown that this book was intended to be about. However, when you start digging deeper into the Motown story, you realise

that throughout its life (which, for the purposes of this book, is its formation in 1959 through to its sale in 1988) it was constantly trying other musical genres, looking to grab hits out of jazz, country, pop, rock, middle of the road and whatever else might be happening at the time. Of course it wasn't particularly successful at some of the other genres, although those who claim Motown never did much in the rock market conveniently overlook the healthy sales figures achieved by Rare Earth, the group, and focus instead on the total sales achieved on Rare Earth, the label. This book, therefore, contains biographies of all 684 artists who had releases on Motown and their various imprints, as well as biographies of 16 musicians, 23 producers, 19 writers and 13 executives. There are also details of the 50 or so labels that Motown owned, licensed to or licensed from. All nine films and the 17 soundtracks are also featured. Every Motown single and album and EP that made the Top Ten of the pop charts in either the US or UK also have their own entries, with 222 singles, 84 albums

and five EPs being featured. Finally, there are 36 other entries, covering such topics as the Hollywood Walk of Fame, the Motortown Revues, Grammy Awards and the most played Motown songs on radio. The 1,178 entries cover every aspect of Motown and more - of the link between Granny in The Beverly Hillbillies and Wonder Woman, of the artists from Abbey Tavern Singers to Zulema, and the hits from ABC to You Really Got A Hold On Me. The Motown Encyclopedia is the story of Motown Records; Yesterday, Today, Forever.

A captivating portrait of some of Charles Dickens' most memorable female characters presented by popular actress Miriam Margolyes to accompany her hugely successful one-woman show touring the world in 2012. In his novels Dickens presents a series of unrivalled portraits of women, young and old. From Little Nell to Miss Havisham, these girls and women speak to us today, making us laugh and sometimes cry. The popular British actress Miriam Margolyes will be touring the world in 2012, the bicentenary of Dickens' birth, with a one-woman show about Dickens' women, and this book accompanies the show by building on the script and expanding to include many more of the female characters Dickens described and analysed so astutely in his novels. "Mrs Pipchin was a marvellous ill-favoured, ill-conditioned old lady, of a stooping figure, with a mottled face, like bad marble, a hook nose, and a hard grey eye, that looked as if it might have been hammered at on an anvil without sustaining any injury."
