Tatum Everley is a freshman at Western Michigan University. Due to an emotionally and psychologically abusive past relationship, Tate struggles from Complex-Post Traumatic Stress Disorder. She has been working on controlling her symptoms and flashbacks, but when she meets Axel Burne at a fraternity party, who is notorious for sleeping around and getting into fights, she tries her best to dodge the bullet. Axel starts to become intrigued by Tate, but she's better off choosing Lucas- the sweet guy who has been trying to take her out since orientation. But even though Lucas is the better option, Axel keeps reappearing. Tate continues to try to stay away from him, but it starts becoming harder to, and as she gets closer to him, things start to get way out of hand. If Tate wants her happy ending and her sanity intact, then she has to push through the hardships and maintain control over her disorder.

The first human-alien contact. The last word in galactic warfare. The story you must read-before Transformers rockets to the big screen! A mammoth robotic being, clearly of alien origin, has been found beneath the Arctic ice. Its advanced engineering dwarfs known human technology, and unlocking its secrets will catapult American science eons into the future. In search of the mysterious artifact's origin, a covert government agency sends the manned craft Ghost 1 on a perilous journey of discovery. When a mishap maroons Ghost 1 in the far reaches of unknown space, the ship's distress beacon reaches the very alien race Ghost 1's crew has been seeking: the Autobots. The gigantic mechanized beings are also on a quest: to find the Allspark, a device crucial to the salvation of their home world, Cybertron. But they're not alone. The Decepticons, the Autobots' brutal enemies, have their own sinister purposes in seeking the Allspark. As these adversaries are drawn together once more, the stage is set for a death-dealing new battle in which each is driven by a single-minded aim: total annihilation of the enemy.

Transformers: Ghosts of Yesterday John Wiley & Sons

"...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their granddad - the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

"The 1,165 entries of Handbooks and Anthologies for Officials in Imperial China by Pierre-Étienne Will and collaborators provide a descriptive list of extant manuscript and printed works-mainly from the Song, Ming, and Qing dynasties-created with the aim to instruct officials and other administrators of imperial China about the technical and ethical aspects of government, and to provide tools and guides to help with the relevant procedures. Both generalist and specialized texts are considered. Among the latter, such disciplines as the administration of justice, famine relief, and the military receive particular attention. Each entry includes the publishing history of the work considered (including modern editions), an analysis of contents, and a biographical sketch of the author."--

Getting Good Fit John Wiley & Sons

This volume brings together an international team of scholars to debate Cicero's role in the narrative of Roman law in the late Republic - a role that has been minimised or overlooked in previous scholarship. This reflects current research that opens a larger and more complex debate about the nature of law and of the legal profession in the last century of the Roman Republic.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

This volume introduces readers to the methodology of dynamic systems analysis, using mathematical modelling techniques as an aid to understanding biological phenomena. It creates an ability to appreciate current medical and biological literature, in which mathematical models are being used with increasing frequency, and provides an introduction to the more advanced techniques of

systems science. Mathematical concepts are illustrated by reference to frequent biological examples. By the use of case studies drawn from physiology, the various levels of mathematical modelling which can be adopted are presented.

Army Tactics, Techniques, and Procedures (ATTP) 3-39.20 is the manual for police intelligence operations (PIO) doctrine. This manual aligns with Field Manual (FM) 3-39, the Military Police Corps Regiment's keystone manual, and other Army and joint doctrine. Simultaneous operations that combine offensive, defensive, and stability or civil support operations are emphasized. PIO is a military police function that support the operations process and protection activities by providing exceptional police information and intelligence to enhance situational understanding, protection of the force, and homeland security (HLS). This manual emphasizes that PIO supports, enhanced, and contributes to the commander's protection program and situational understanding by analyzing, integrating, and portraying relevant criminal threat and police information and intelligence that may affect the operational environment (OE). This threat information is gathered by military police Soldiers as they conduct military police functions and by other Army Soldiers, Service policing forces, multinational elements, and security forces. This manual is written for military police and United States Criminal Investigation Command (USACIDC) Soldiers and civilians conducting the PIO function. This manual is focused on establishing the framework of PIO, how PIO supports military police and Army operations, and how to integrate PIO within the other four military police functions: Law and order (L&O), internment and resettlement (I/R), maneuver and mobility support (MMS), and area security (AS).

If any country was born to holiday, it's Australia. Sun, space, beaches - the desire to hit the road and "get out of town" remains a strong and enduring part of our cultural identity. Many of us remember the summer ritual of packing up the car with half the stuff we owned and heading for our chosen "spot" in often incident-packed road trips. Central to those memorable journeys was the motel. "We'll stay a night in Gundagai," Dad would say, to break up the trip. Discovering the configuration of a new motel was all part of the holiday adventure - did it have a colour TV? The little packs of cereal? A couple of complimentary Arrowroots to go with the free tea and coffee? Bricks on the inside as well as the out? In his new book Motel, Tim Ross captures the heyday of Australia's motels via a deep trawl through the National Archives, presenting a fascinating slideshow of Australians on holidays between 1950 and 1989. A pictorial love letter to a somewhat bygone era, it captures the accessible glamour and car-friendly convenience of the road-side motel, from Gold Coast 'palaces' to out-of-the-way comfort stops (some with attached restaurant! Dinner: 6.30-8pm). Motel is an affectionate tribute to one of this country's greatest democratic institutions. From Prime Ministers to punters, at some stage we've all had to lay our head down at a welcoming motel as the sun sets on the highway.
