Award-winning author Lorraine Duvall's recent book tells the story of a women's commune in northern New York. In 1974, seven women, with their eight children, left their jobs, friends, and families to live together communally on a 23-acre, rustic, abandoned resort in Athol, New York. They called their new home A Woman's Place, inspired by other feminists to take this independent action and leave behind the restraints of the patriarchal society of the 1960s and '70s. This was also the time when back-to-the-land intentional communities were started in rural areas of the United States and abroad. Most were co-ed. Only a few were women-only. Hundreds of women passed through the doors of A Woman's Place in its eight years of existence from 1974 to 1982. The popularity spoke to the need for women to congregate and take comfort in knowing that they were not alone in their struggles to thrive in a male-dominated world. Duvall tells a powerful story of communal living—the trials and tribulations, the joys and sorrows. Hearing about the personal lives of the women who were brave enough to begin anew at A Woman's Place will hopefully inspire women, and men, to take action in their own personal lives.

She wants faith, hope, and love. She wants help and healing. She wants to hear and be heard, to see and be seen. She wants things set right. She wants to know what is true—not partly true, or sometimes true, or almost true. She wants to see Truth itself, face-to-face. But here, now, these things are all cloudy. Hope is tinged with hurt. Faith is shaded by doubt. Lesser, broken things masquerade as love. How does she find something permanent when the world around her is always changing, when not even she can stay the same? And if she finds it, how does she hold on? *She Reads Truth* tells the stories of two women who discovered, through very different lives and circumstances, that only God and His Word remain unchanged as the world around them shifted and slipped away. Infused with biblical application and Scripture, this book is not just about two characters in two stories, but about one Hero and one Story. Every image points to the bigger picture—that God and His Word are true. Not because of anything we do, but because of who He is. Not once, not occasionally, but right now and all the time. Sometimes it takes everything moving to notice the thing that doesn't move. Sometimes it takes telling two very different stories to notice how the Truth was exactly the same in both of them. For anyone searching for a solid foundation to cling to, *She Reads Truth* is a rich and honest Bible-filled journey to finally find permanent in a world that's passing away.

A fearless primer on the feminism we need now: tactics for

advancing reproductive justice, promoting intersectionality, and pushing back against patriarchal systems of oppression Too loud. Too shrill. Too far. Too much. Despite the systematic chipping away at our voices, autonomy, and rights, women who demand more--or even just enough--continue to be pushed aside, talked over, and dismissed. From unbridled online abuse to the unspoken societal rules that dictate who can express anger, when you're a feminist the personal is political...and it's time we all embrace feminism as a matter of survival. Cultural critic and Gen-Z feminist Kylie Cheung lays bare the state of affairs for women in the twenty-first century. She discusses the challenges of our time, from misogyny to gaslighting, racism, and rampant attacks on reproductive healthcare. She also explores the empowering strides of #MeToo, unprecedented youth mobilization, and increasing recognition of the power and necessity of intersectional movements. Cheung weaves biting cultural commentary with personal narrative, sharing stories of feminist awakening, online harassment, and the effects of sexual assault, racism, fetishization, and misogyny within relationships. She speaks candidly to a new generation of feminists seeking real, unfiltered experiences and guidance as they navigate the sexist realities of our unjust world. Cheung's manifesto is a tour-de-force of fourth-wave feminism, a call to arms that speaks truth to power as we engage in the fight of and for our lives.

Dismiss the stereotype of the bearded brewer. It's women, not men, who've brewed beer throughout most of human history. Their role as family and village brewer lasted for hundreds of thousands of years—through the earliest days of Mesopotamian civilization, the reign of Cleopatra, the witch trials of Medieval and Renaissance Europe, and the settling of colonial America. *A Woman's Place Is in the Brewhouse* celebrates the contributions and influence of female brewers and explores the forces that have erased them from the brewing world. It's a history that's simultaneously inspiring and demeaning. Wherever and whenever the cottage brewing industry has grown profitable, politics, religion, and capitalism have grown greedy. On a macro scale, men have repeatedly seized control and forced women out of the business. Other times, women have simply lost the minimal independence, respect, and economic power brewing brought them. But there are more breweries now than at any time in American history and today women serve as founder, CEO, or head brewer at more than one thousand of them. As women continue to work hard for equal treatment and recognition in the industry, author Tara Nurin shows readers that women have been—and are once again becoming—relevant in the brewing world.

It is 1968 and everything about being a Black woman in America is changing. A society once walled off has begun opening doors. Against this backdrop, three young women meet at a New England college and form a friendship that endures, heals, and dramatically shapes their lives. With backgrounds and temperaments symbolic of the many questions around attaining selfhood in the aftermath of freedom movements, Faith, Crystal and Serena struggle to exercise personal agency in an era when family history, along with race and gender identities, threaten to dictate their paths. As a poet-creative Crystal reaches for expression in language and in choosing who and how she loves. As a budding activist, Serena eschews conventions of marriage, and belonging, to become a global being, leaving the soil of America for Africa, where NGO work evolves into leading women toward an independence she herself maintains by remaining the mistress, never the bride, of a powerful man. Surprisingly, it is Faith, the most introverted, drawn into the self by a series of traumas, whose seemingly self-limiting choices will more directly affect a generation of women to come. The Philadelphia Tribune declared it, "a story of hope, a story of triumph and, above all, a testimony to resilience." Published in 1986 after the award-winning autobiography *Migrations of the Heart*, *A Woman's Place* is Marita Golden's first novel. More than fourteen books in fiction and nonfiction, including *Gumbo: An Anthology of African-American Writing* co-edited with E. Lynn Harris, followed. Golden went on to create and helm the Hurston/Wright Foundation, which has become a literary rite of passage for such talents as Nicole Dennis-Benn, Brit Bennett and Tayari Jones. *A Woman's Place* is reprinted here as an esteemed addition to McSweeney's *Of the Diaspora* series, edited by Erica Vital-Lazare, and opens with a new introduction by the author, with foreword by Women's March co-founder Tabitha St. Bernard-Jacobs.

These poems use internal dialogue to explore the social identity of a woman traversing the stages of life in a patriarchal culture where she has not been allowed to cultivate her own identity.

'A clear, concise, easy-to-read account of the issues between sex, gender and feminism . . . an important book' Evening Standard 'A call for cool heads at a time of great heat and a vital reminder that revolutions don't always end well' Sunday Times *Material Girls* is a timely and trenchant critique of the influential theory that we all have an inner feeling known as a gender identity, and that this feeling is more socially significant than our biological sex. Professor Kathleen Stock surveys the philosophical ideas that led to this point, and closely interrogates each one, from De Beauvoir's statement that, 'One is not born, but rather becomes a woman' (an assertion she contends has been misinterpreted and repurposed), to Judith Butler's claim that language creates biological reality, rather than describing it. She looks at biological sex in a range of important contexts, including women-only spaces and resources, healthcare, epidemiology, political organization and data collection. *Material Girls* makes a clear, humane and feminist case for our retaining the ability to discuss reality, and concludes with a positive vision for the future, in which trans rights activists and feminists can collaborate to achieve some of their political aims.

This important book looks at the changes in AFDC, Social Security, and Unemployment Insurance, and welfare "reform." This new edition reveals how welfare policy scapegoats women more than ever to justify widespread retrenchment and to divert the public's attention from the real causes of the nation's mounting economic woes.

"Compelling. It serves as a lesson and a warning, for it might disabuse many women of their notion that the first step toward the executive ladder is at a typewriter. Certainly [it] suggests MBAs for aspiring women, rather than Smith-Coronas." --Boston Sunday Globe In most societies, a sexual division of labor is usually regarded as "natural." Thus, in the United States today not only does it seem proper that woman's place is at the stove, or with the children, or in the classroom, or at the typewriter, but it also seems "natural" it was always so. Looking at clerical workers, the author shows how work once performed by men became redefined as "women's work." She explores this shift in the context of patriarchal social relations and political-economic forces. The interaction of which determined woman's place in the office. Before 1900, male clerical workers, as apprentice capitalists, performed a wide variety of tasks that helped them learn the business. By 1930, the class position of clerical workers had changed, and autonomous male clerks were transformed into working class females--a "secretarial proletariat." Based on business histories, corporation records, correspondence, and even fiction. Dr. Davies' work demonstrates how the feminization of clerical work is historically specific rather than ordained by nature; how it reflects the peculiar forms which patriarchy have assumed in the United States; and how the working class status of contemporary office workers began to take shape at the end of the nineteenth century. From the time the first female office worker was hired by US Treasurer General Elias Spinner during the Civil War and it became apparent that female labor was cheaper than male, women became increasingly visible in the office. The author accounts for this by discussing the decrease in productive work in the home, the perceived higher status of office work, and the better working conditions in offices. She also looks at scientific office management, which crystallized labor specialization and helped eliminate worker control over work. Examining the role of the private secretary, she concludes this apparently more attractive position served to mask the realities of typical office work. Perhaps the most interesting conclusion reached in this book is that the degradation and the proletarianization of office work were disguised by the shift from male to female workers. The nineteenth-century clerk has not turned merely into a proletarian: he had turned into a woman. "One of the first books to tackle this important topic and as such admirably begins to fill the gap. . . . A critical contribution." --The Journal of American History "Lively reading. Davies' review of the impact of the typewriter proves a useful perspective for those trying to evaluate the impact of the word processor on social roles and labor markets in the 1980s." --Choice *A Woman's Place Is at the Top* Beacon Hill Press A thought-provoking collection of personal essays about home What makes a home? ****A New York Times Bestseller!**** Based on the wildly popular Instagram account, Subpar Parks features both the greatest hits and brand-new content, all celebrating the incredible beauty and variety of America's national parks juxtaposed with the clueless and hilarious one-star reviews posted by visitors. Subpar Parks, both on the popular Instagram page and in this humorous, informative, and collectible book, combines two things that seem like they might not work together yet somehow harmonize perfectly: beautiful illustrations and informative, amusing text celebrating each national park paired with the one-star reviews disappointed tourists have left online. Never mind the person who visited the thermal pools at Yellowstone National Park and left thinking, "Save yourself some money, boil some water at home." Featuring more than 50 percent new material, the book will include more depth and insight into the most popular parks, such as Yosemite, Yellowstone, the Grand Canyon, and Acadia National Parks; anecdotes and tips from rangers; and much more about author Amber Share's personal love and connection to the outdoors. Equal parts humor and love for the national parks and the great outdoors, it's the perfect gift for anyone who loves to spend time outside as well as have a good read (and laugh) once they come indoors.

In *Women's Place in the Andes* Florence E. Babb draws on four decades of anthropological research to reexamine the complex interworkings of gender, race, and indigeneity in Peru and beyond. She deftly interweaves five new analytical chapters with six of her previously published works that exemplify currents in feminist anthropology and activism. Babb argues that decolonizing feminism and engaging more fully with interlocutors from the South will lead to a deeper understanding of the iconic Andean women who are subjects of both national pride and everyday scorn. This book's novel approach goes on to set forth a collaborative methodology for rethinking gender and race in the Americas.

A Woman's Place in Education (1996) Little, Brown

A rollicking feminist tale set in 1950s America where thousands of women have spontaneously transformed into dragons, exploding notions of a woman's place in the world and expanding minds about accepting others for who they really are. • The first adult novel by the Newbery award-winning author of *The Girl Who Drank the Moon* Alex Green is a young girl in a world much like ours, except for its most seminal event: the Mass Dragoning of 1955, when hundreds of thousands of ordinary wives and mothers sprouted wings, scales, and talons; left a trail of fiery destruction in their path; and took to the skies. Was it their choice? What will become of those left behind? Why did Alex's beloved aunt Marla transform but her mother did not? Alex doesn't know. It's taboo to speak of. Forced into silence, Alex nevertheless must face the consequences of this astonishing event: a mother more protective than ever; an absentee father; the upsetting insistence that her aunt never even existed; and watching her beloved cousin Bea become dangerously obsessed with the forbidden. In this timely and timeless speculative novel, award-winning author Kelly Barnhill boldly explores rage, memory, and the tyranny of forced limitations. When *Women Were Dragons* exposes a world that wants to keep women small—their lives and their prospects—and examines what happens when they rise en masse and take up the space they deserve.

Charlotte Perkins Gilman and *A Woman's Place in America* probes how depictions of space, confinement, and liberation establish both the difficulty and necessity of female empowerment.

Turning Victorian notions of propriety and a woman's place on its ear, this essay collection studies Gilman's writings and the manner in which they push back against societal norms and reject male-dominated confines of space. The contributors present readings of some of Gilman's most significant works. By examining the settings in "The Yellow Wallpaper" and Herland, for example, the volume analyzes Gilman's construction of place, her representations of male dominance and female subjugation, and her analysis of the rules and obligations that women feel in

conforming to their assigned place: the home. Additionally, this volume delineates female resistance to this conformity. Contributors highlight how Gilman's narrators often choose resistance over obedient captivity, breaking free of the spaces imposed upon them in order to seek or create their own habitats. Through biographical interpretations of Gilman's work that focus on the author's own renouncement of her "natural" role of wife and mother, contributors trace her relocation to the American West in an attempt to appropriate the masculinized spaces of work and social organization. --
